

## **Wakeboard-legends on the Black Sea in Anapa – the Ski Rixen Vostok Cable Wakeboard World Championships has started now**

Sensational airs and crazy jumps – the riders amazed the tourism metropolis in Anapa already during their trainings on Friday 5<sup>th</sup> September.

Unbelievable but true. Top-class nations for example from Great Britain, the Netherlands, Germany and Hungary sent their rider to a big trip to Russia to elect the world´s best Wakeboarder. Nick Davies (Great Britain), Daniel Fetz (Austria), Maxine Sapulette (The Netherlands) and Kinga Horvath (Hungary) present their best performance so that it would not be easy for their competitors to keep up with them. If these results of these trainings could be confirmed will be shown on Saturday 6<sup>th</sup> September when the riders will run their first qualifications.

An absolute eye catcher is Jurij Pashkov. He is a wakeboard- and extreme sports god already in Russia – maybe world-wide soon? He started his wakeboard-career in 2003 and since this year nothing can stop him. The sport is unimaginable without him.

When he is not at the cableway doing his job as an instructor he is a moderator at the Russian TV station MTV.

Instead of his participations in this competition he would not remain on the moderation of the World Championships. He will rock the competitions and riders parties in cooperation with the famous wakeboard-speaker Clint Liddy from Australia.

A team of moderators which is unique.

The official starting-signal for the opening of the Ski Rixen Vostok Cable Wakeboard World Championships is done on Friday evening. The team of Gennadiy Pavlov created an Opening Ceremony that amazed and impressed the riders. A mix of Russian traditions and international show elements celebrated the World´s with a great honour.

Welcome to the Rixen Ski Vostok Cable Wakeboard World Championships!
