**Course**

The cable in Moncontour is a Rixen system built last year in 2006, about 645 m, 8 carriers.

5 obstacles possible on your run :

First one is the kicker on the right side, second is the “flat rail” on the left side, then you have the choice between an other but left side “kicker” or the right side “A-Frame”, finally the run ends with the left side “up rail”.

There spaces for inverts and realise complete and amazing runs !!!

Sketch of course & obstacles:
