The final Course Layout is as follows:

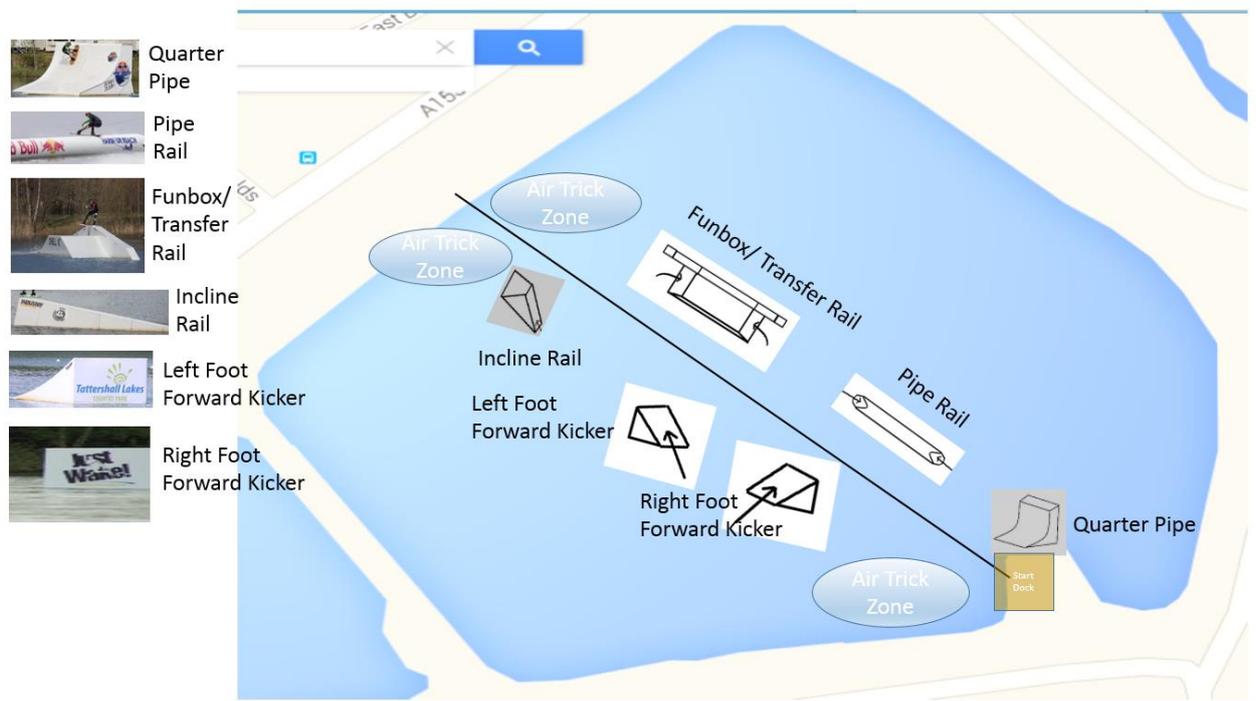

The whole competition will run on 'CABLE A' our more advanced Cable System. The final course set up will be published closer to the date, however this is the 2015 Format for information.

Features Included on Cable A

	<p>INDUSTRY WAKE PARKS INCLINE RAIL</p>
	<p>UNIT PARKTECH PIPE RAIL</p>
	<p>UNIT PARKTECH QUARTER PIPE</p>

From Cable A the course is set out as follows:

(Cable A is 200m in Length Tower to tower, approx. 185m running line)

The format of the competition is as follows:

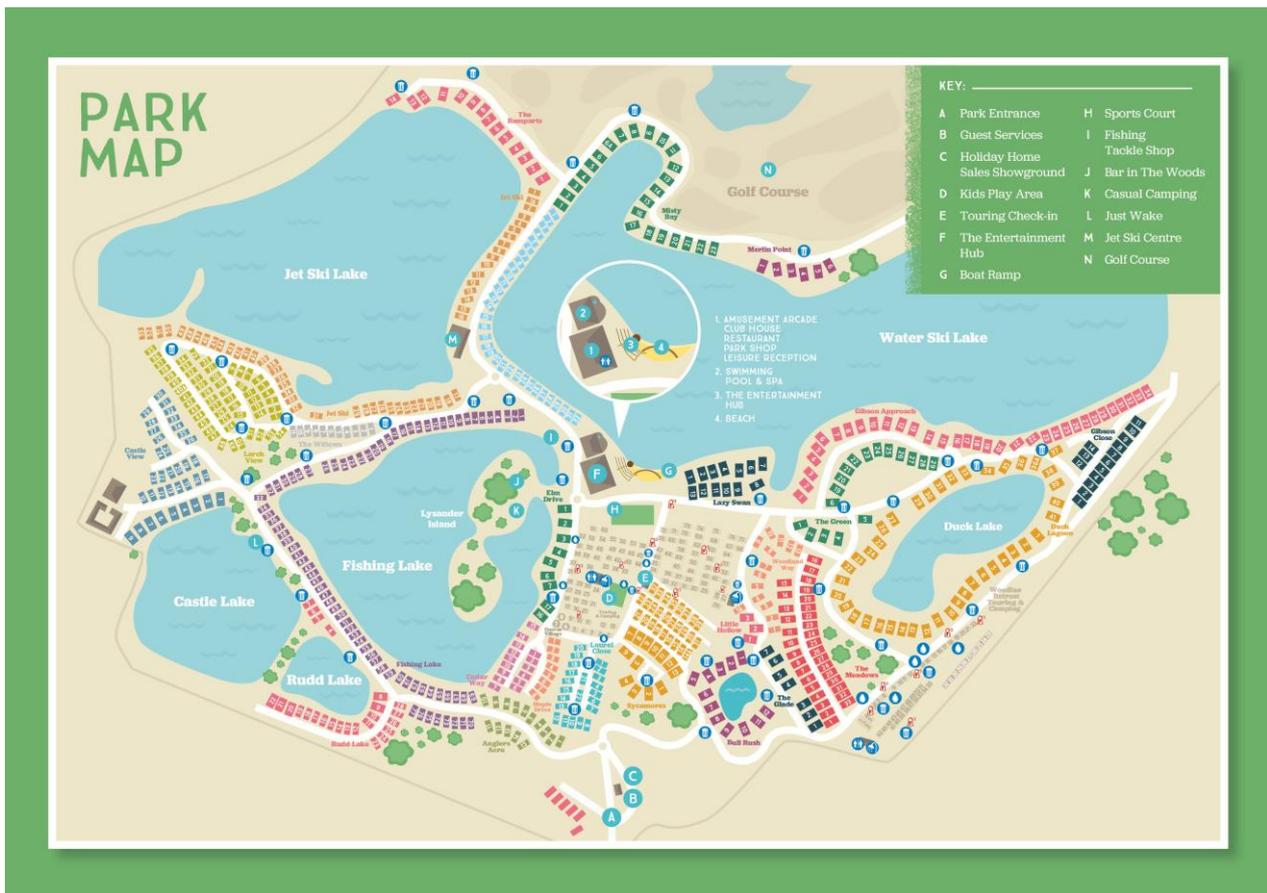

1. The competition is to be run in line with the IWWF Rules 2015, the below items are specific to running this competition on a STRAIGHT LINE CABLE, and highlights some of the key differences between the Cableways.
2. A run will consist of 2 Passes of the Cable, a complete pass is 1 run and back. If you choose to include the Quarter Pipe in your run, this can only be hit in between Passes 1 &2, You are NOT Allowed to Finish your run using the Quarter Pipe.
3. Air Tricks can be performed either Right Foot Forward or Left Foot Forward, but may involve missing an obstacle to complete. (Left Foot Forward may require you to miss the Incline Rail, Right Foot Forward may require you to miss the Pipe Rail) Please be aware of this when planning your runs. Air Tricks must NOT be performed between the Pipe and the Quarter Pipe coming down back towards the start dock.
4. Air Tricks must not be performed on the Corner, they must be performed before you reach the corner.
5. You can pick the speed that you will be driven on, this will then be held for the full duration of your run and the driver will not change the speed during your run.
6. Corners will be driven safely by the Cable Operator, but the operator will not be able to assist you around the corner.
7. There are No Falls or Picks up. If you fall during your run, you must move out of the competition run as quickly as possible to allow the competition to continue.

8. There will be 2 Runs for each qualifier, but LCQ's will only include 1 Run.
