+30/Masters Men/Ladies Your year of birth must be 1988 or before.

+40/Veterans Men/Ladies Your year of birth must be 1978 or before.

## **Wakeskate**

Open Men/Ladies No age restriction

+30/Masters Men/Ladies Your year of birth must be 1988 or before.

# COMPETITION FORMAT

The 2019 Philippine Cable Wake Nationals will be carried out according to the IWWF Cable Wakeboard World Council rules. CWWC 2018 Rulebook

[http://iwsf.com/CouncilRulebooks/IWWF\\_CableWakeRules\\_2015\\_vMay6.pdf](http://iwsf.com/CouncilRulebooks/IWWF_CableWakeRules_2015_vMay6.pdf)

## FORMAT

- Riders will be judged in a FREERIDE format only. Features may be used.
- Riders will be judged on their equal use of both air tricks and features. Depending on the format of the competition and the quantity of features or possibilities to do air tricks, the weighting may be adapted by the Chief Judge and would be explained at the riders meeting.
- There will be a minimum of two rounds: a Qualification, and a Final Round. Using the heat system, Last Chance Qualifier (LCQ) and Semifinal rounds have to be included depending on the number of riders.
- One round will consist of two runs (passes) through the course, each run consisting of combinations of inverts, grabs, rotational tricks, and features. Riders may perform any tricks they choose in any order they wish. Only the best out of the two runs will be scored.
- If it is necessary to shorten the competition, the Chief Judge can decide to have only one run in the Qualification Round, especially in a small category where all riders proceed to finals and the qualifying run is used only to determine the starting orders of the finals.
- Judging of the routine begins when the rider enters the course and ends when the rider exits the course or falls and loses the handle.
- The speed must remain constant from the beginning of the training until the end of the competition. Competitions in two-towers systems must be run in automatic mode, the operator is not allowed to slow down for turns or tricks.

## JUDGING CRITERIA/SCORING

- Judging will be SUBJECTIVE only. There will be no predetermined points for any tricks.
- There must be a minimum of three judges, one of which will act as Head Judge. All must be recognized by CWWC, or National Federation for national events.
- For each judge team, a Head judge will be chosen. After the first rider in the heat, the Head judge will give a range for the scoring of the first rider. This will give a solid base for judging this particular heat.
- Judges must ensure equal riding conditions are applied to all competitors.
- The scores awarded will reflect each run (pass) with a single combined score from 0-100 points. Only the best of the two runs will be taken as a result. The lower scored run will be removed.
- Each rider shall be allowed two runs through the course during which time he may perform any routine he chooses. He will be judged on two subjective categories, to arrive at a single combined score for each run. Points will be given based on technical performance and impression. Riders are encouraged to perform a smooth flowing

routine with a wide variety of tricks. Each maneuver should be executed as cleanly as possible and taken to its limit.

- **Technical performance = 50 %** (Level and variety of tricks performed = what did the rider perform) Judges look for the variety and diversity of tricks in a flowing creative sequence. In the judge's eyes, a better rider is one who throws a balanced variety of inverts, spins, heel side, toe side, switch, blind tricks, and handle passes etc, using both air tricks and features.
- **Impression = 50 %** (Airtime, mastery, style and control of tricks = how did the rider perform) How impressive was the routine, how big did the rider go? For Slider and Kicker, how controlled and balanced is the rider? The judges look for the degree of effort in each maneuver performed and in the overall run. Does the Rider show his personal style in the trick performed? Is the trick grabbed, boned, tweaked, shifted? Are the tricks landed clean? How good is the body position in the air? How long was the trick grabbed? How good is the approach /cut of the tricks, the flow in the run ?
- Calculation of scores: Scores from the two categories (Technical performance and Impression) of a rider's routine are added together to produce a judge's total score out of 100. All three judges' total scores are then averaged to produce a final score out of 100 for each rider.
- Repetition of tricks during one run will not be scored but a rider can repeat tricks from the first run in his second run.
- Any trick performed outside of the course or using the pull of a deflection pulley will NOT be scored.
- The results may be displayed live during the competition. However, they are not official until they're complete and approved by the Head Judge of the heat.
-

## RIDER REGISTRATION

Every rider need to create an account and register themselves on [www.cablewakeboard.net](http://www.cablewakeboard.net), fill your profile completely

Once registered they need to join our event at the 2019 Philippine Cable Wake Nationals in order to collect your points.
